

THE DIGITAL DISPATCH

June 2026 | Volume 2 | Issue 1

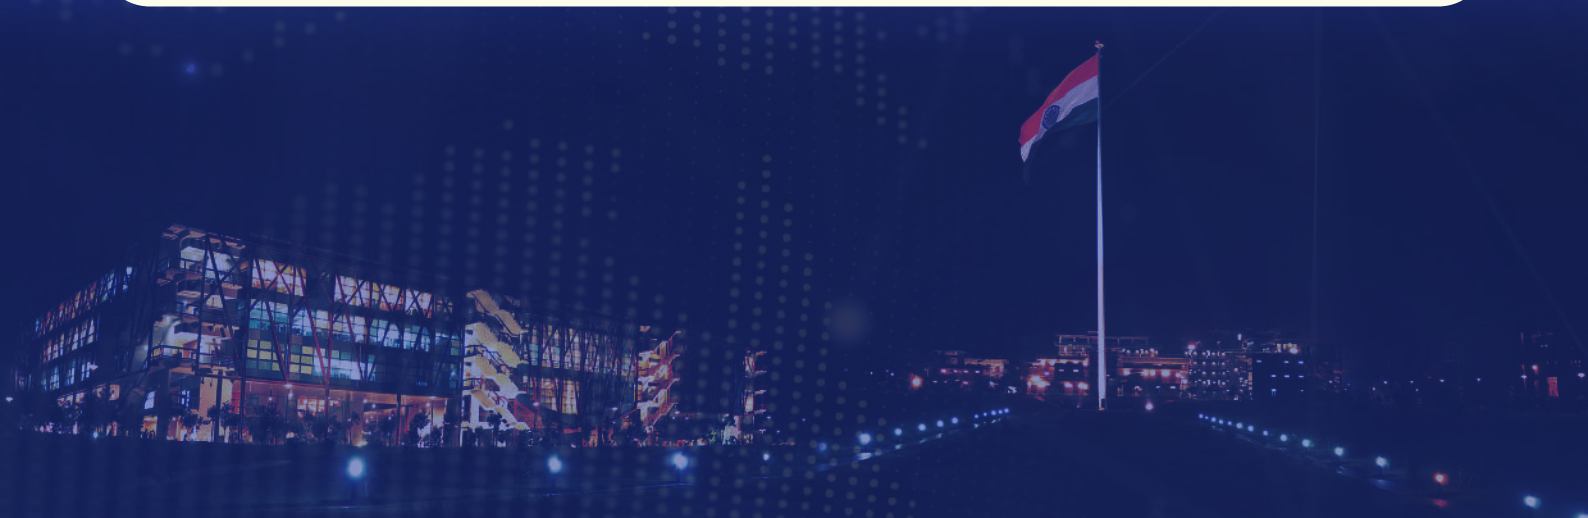

Dear Readers,

Every meaningful journey begins with a learner- and flourishes into leadership through vision, courage, and purposeful action. Since our last newsletter, we have taken decisive strides toward redefining education as a transformative force in the space of online learning - one that not only imparts knowledge but ignites leadership from within.

With the launch of new programmes and many more on the horizon, we are building pathways that empower individuals to rise beyond limits, take ownership of their growth, and lead with confidence in an ever-changing world. Each initiative reflects our belief that leadership is not a destination, but a journey shaped by learning, experience, and character.

At the heart of everything lies our enduring promise - Creating Leaders. Leaders who think boldly, act ethically, and inspire change. Leaders who do not just adapt to the future, but shape it.

We invite you to walk this journey with us - where learning transforms into purpose and potential finds its voice.

9 INTRODUCING New Online Degree Programmes

M.A. in American Studies

A fully online, interdisciplinary programme offering a critical understanding of the United States-its history, politics, economy, society, law, and global influence-examining America as a nation, civilization, and global force through comparative and contemporary perspectives.

M.A. in Electoral Analysis & Management

A practice-oriented programme preparing professionals for democratic and electoral leadership through training in public policy, political behaviour, data analytics, election law, campaign strategy, and applied simulations of real-world electoral processes.

M.A. in Political Communication

An interdisciplinary programme examining how media, technology, data, and strategy shape contemporary politics, governance, elections, and public opinion, blending theory with campaign labs, simulations, and practitioner-led learning.

M.A. in Criminology & Criminal Justice

A globally informed programme offering critical perspectives on crime and justice, exploring policing, punishment, inequality, surveillance, migration, digital transformation, and environmental harm through rigorous theory and empirical inquiry.

M.A. in Legislative Drafting

A specialised programme addressing India's need for formally trained legislative drafters, integrating law, policy, governance, constitutional coherence, statutory interpretation, and global best practices in clear, effective legislative drafting.

M.Sc. in Entrepreneurship, Innovation & Start-ups

A future-focused programme designed to develop entrepreneurial mindset and leadership skills, combining innovation theory with hands-on learning to prepare students to launch, scale, and sustain ethically grounded ventures.

B.Sc. in Finance & Entrepreneurship

A fully online undergraduate programme combining core finance education with entrepreneurial skills, covering financial markets, fintech, AI, data analytics, and digital ventures through applied learning and global perspectives.

B.Sc. in AI & Finance

An interdisciplinary programme integrating artificial intelligence, data analytics, and finance, equipping learners with practical skills in machine learning, fintech applications, risk modelling, and data-driven financial decision-making.

M.Sc. in Digital Governance & Digital Public Infrastructure

A one-year online programme integrating public policy and technology, examining digital governance, regulatory frameworks, and digital public infrastructure with strong Global South and applied policy perspectives.

DASCA

Trusted Worldwide: DASCA Accreditation

Our programme is accredited by the Data Science Council of America (DASCA) - a globally recognised authority dedicated to advancing standards in data science and analytics education. This accreditation validates the programme's strong alignment with international industry requirements, practical rigor, and future ready skill development.

A DASCA accredited programme equips learners with globally relevant competencies in data science and analytics, enhancing professional credibility and opening doors to high impact career opportunities worldwide.

ALUMNI in Spotlight

Rajiv Gaba

MBA 2023-24

Vice President, Kotak Mahindra Bank

Having completed an MBA from the university in collaboration with upGrad, I found the program to be a pivotal turning point in my career. Despite 15 years of steady advancement in the technology domain, my mindset remained strictly technical, even as my roles demanded broader leadership skills. This program has fundamentally shifted my perspective, evolving my approach from providing isolated technical fixes to solving problems holistically. I now evaluate challenges through a strategic lens, often identifying ways to eliminate the root cause of a problem rather than simply building a technical solution for it.

My primary learning was a holistic assessment of how organizations function. The capstone project integrated finance, marketing, and sales through remote collaboration, which significantly refined my strategic thinking and developed an entrepreneurial mindset essential for my current role.

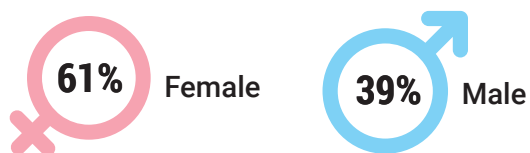

Think beyond the curriculum. Work on real projects with diverse teams to understand the 'why' behind the 'what.' Stay curious, stay humble, and remember: complacency kills growth.

KNOW

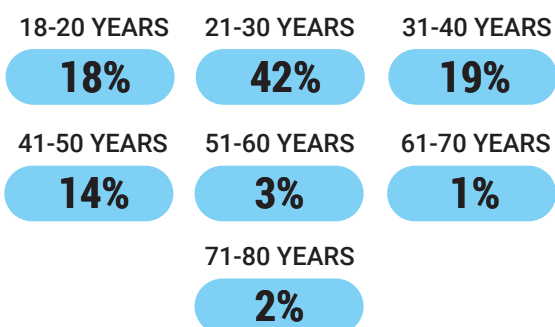

the Class Profile of March - April Cohort 2026

B.Sc. in Psychology

GENDER RATIO

AGE DISTRIBUTION

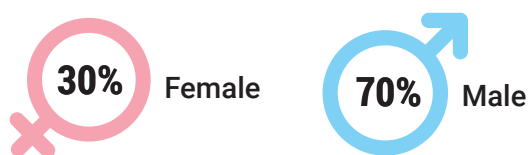

PROFESSIONAL BACKGROUNDS REPRESENTED

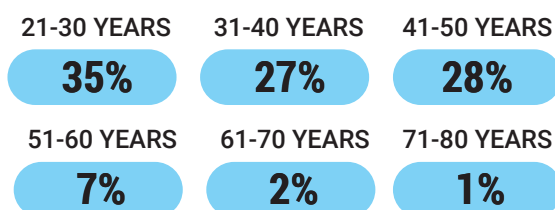

- ▶ Academic and researcher
- ▶ Behaviour interventionist
- ▶ Brand Strategy
